# Annual Report

# A Note from Our Director

Hello once again from the Board of Pharmacy. Each year it is important that we not only look at our future plans for our agency but that we also examine the projects and partnerships that we have worked on over the previous year. In reviewing our efforts for the past year, it is worth noting several ongoing projects that the Board of Pharmacy is partnered in that continue to serve the citizens of Arkansas.

As in previous years, a major focus of the Board's efforts has been on prescription drug abuse, misuse, and addictive disease. In addressing these issues, the Board has partnered with state and federal entities such as our Governor and his staff, the Drug Enforcement Administration, the Arkansas State Drug Director's Office, the Arkansas Attorney General, our state legislators, and many others. With these partners we work to actively address issues of prescription drug abuse and misuse in Arkansas, including promoting safety measures for patients to appropriately dispose of their unwanted and unneeded prescription drugs. Arkansas's efforts in the Prescription Drug Takeback program resulted in a collection of 23,434 pounds of medication during the Fall 2016 event and another collection of 24,483 pounds of medication during the April 2017 event.

The Board has also continued to offer Continuing Education programs for law enforcement officers, physicians, pharmacists, nurses, other healthcare workers, and concerned citizens through our Arkansas Prescription Drug Abuse Summits, Mini Drug Summits and classes through the University of Arkansas Criminal Justice Institute as well as meetings and expert panels at the local, regional, and national levels. Not only have we continued our partnerships with agencies such as DEA and CJI to deliver the certification course related to Act 901 of 2015 for training to become a certified law enforcement prescription drug diversion investigator, we have seen the early results of this education as more officers are able to utilize the PDMP in their investigative process.

One major area of our educational outreach this year has been in regard to the lifesaving medication Naloxone. While it is known by many names, this opioid reversal agent is an important tool in reducing the unintentional death rate due to opioid overdoses in Arkansas as well as throughout the United States. Over the last year our Board has partnered with our new State Drug Director, Kirk Lane who was the previous Chief of Police for Benton, Arkansas. Along with Chief Lane we have been able to deliver programming on Naloxone to encourage law enforcement agencies, schools, prevention groups and healthcare professionals to better understand how Naloxone does and does not work and to make it more available throughout our state. We have already seen a handful of law enforcement agencies adopt policies to carry and utilize Naloxone and expect many more to follow suit going forward.

A second area of our educational outreach has been to partner with DEA, FBI, CJI and our state Drug Director to deliver programs on college campuses with [www.willswork.org](http://www.willswork.org) where we encourage students to Speak Up – Speak Out when they have friends that are in trouble due to drug and/or alcohol use that could lead to addiction and especially in situations of potential overdose to save a life. As part of this outreach we have helped deliver a showing of the DEA/FBI film, Chasing the Dragon, where students see the movie and have a chance to interact with experts from DEA, FBI, local law enforcement, our new Arkansas Drug Director and the Board of Pharmacy to ask questions about drugs, drug abuse, addiction and trends we see with drug use and overdose. Another integral part of this work is to educate the students about the JOSHUA ASHLEY-PAULEY ACT which provides immunity for seeking medical assistance during a drug overdose. This is an Arkansas act that has an important role in reversing the mindset that if you seek help for someone in an overdose situation that you will get in trouble yourself. It is our hope that through education on these two issues, our colleges and schools in Arkansas will take a leadership role in preventing deaths due to prescription drug abuse while also preparing for potential overdose situations throughout Arkansas.

The Arkansas State Board of Pharmacy members and staff continue to believe that these efforts and related initiatives are pivotal in our approach to identifying and reducing drug abuse trends among Arkansas teens and adolescents and are quite possibly some of the most valuable work that we do to serve the public. While these achievements are noteworthy, we understand that this is a long road and we continue to look for additional opportunities to work with our partners and to forge new relationships as we serve the state of Arkansas, diligently working to promote, preserve, and protect the public health, safety, and welfare by and through the effective regulation of the many aspects of the drug delivery system.

Sincerely,

A handwritten signature in black ink that reads "John Clay Kirtley".

John Clay Kirtley, Pharm.D.

The William Christian Doerhoff Memorial Foundation and its mission is to create a culture of awareness on high school and college campuses, of the risks and life threatening dangers of illicit prescription drug use and illegal substance abuse. The goal is to empower students and peers to create a paradigm shift away from the "Bystander Effect" and to "Speak Up-Speak Out" to potentially save the life of a peer.
